

July 2005

FOR IMMEDIATE RELEASE

**METECNO-API, AN AIA/CES REGISTERED PROVIDER
RELEASES FINAL SEMINAR IN A SERIES OF FOUR -
"FACTORY INSULATED FOAM PANELS, PART III
ARCHITECTURAL FOAM PANEL DESIGN"**

Architects now desiring to become well versed in designing with Architectural Foam Panels need only to contact Metecno-API, attend the seminar and earn their credit! This hour-long program also delivering Health, Safety and Welfare credit, will educate them as to facing options, embossing, exotic finishes, multi-story design issues as well as design recommendations, and those are just some of the seminar topics!

Registered architects earn one Learning Unit for attending the seminar and non-AIA members receive a Metecno-API Certificate of Completion for their State MCE License requirements.

Visit www.apipanel.com or call 800-377-5110 for more information on reserving AIA/CES Provider Number J508, Registered Program Number FIFPIII, "Factory Insulated Foam Panels, Part III Architectural Foam Panel Design", as presented by Metecno-API.

You are also welcomed to inquire as to the remaining
three accredited seminars in this series:

FIFPI – Factory Insulated Foam Panels, Part I, A Complete Introduction

FIFPII – Factory Insulated Foam Panels, Part II, Commercial/Industrial Foam Panel Design

FIFPIV – Factory Insulated Foam Panels, Part IV, Cold Storage Construction
