Granitstone® Quartz, it's a natural!

MeTecno-API proudly announces release of the newly enhanced line of Granitstone® colors for metal wall panels in concert with the latest finish, Granitstone® Quartz. This architectural stone finish is created beginning with an acrylic base finish, then adding an extraordinary blend of natural multi-colored Quartz aggregates to achieve a most unique look, so simple in its native beauty. Just imagine your metal panels in this astonishing finish, and we'll make it happen!

You may choose from 8 in-stock Granitstone® colors or 5 in-stock Granitstone® Quartz colors or select a custom color to match your needs. Trims are available in complementary colored embossed and painted steel, or painted aluminum extrusions.

This product offering is available throughout the MeTecno USA companies. Visit www.metecnousa.com and click on any of the websites there to be connected, or call 877-METECNO for a company nearest you. Plant locations are Modesto, CA; DeLand, FL; Columbus, OH; Bristol, CT and Fontana, CA.
